Ed,

Please send out the usual message to Barbara, Tribes etc. that Mary will be out, complete with times and contact numbers. If anything occurs, she is to leave the site.

Kevin

Kevin-

According to Mark Bowman, next week will be the last of the field work for the season. It looks like it will be Tuesday and Wednesday and will consist of percolation testing in the borrow pit area. Mary is lined up to go but has not made any travel arrangements. Please let us know if you want us out there and Mary will book her travel.
